# Minsk Institute of Management entered Belarusian TOP-10 of the world ranking of universities websites according to the version of the 4 International Colleges & Universities portal

**4 International Colleges & Universities** (4ICU) is an international educational portal, containing information about more than 10200 accredited universities and colleges in 200 different countries of the world.

It is worth to be mentioned that 4ICU ranking (unlike, for example, **Ranking Web of World universities**) don't access academic achievements of the institutions of higher education as it is stated by Berlin principles on ranking of higher education institutions.

The aim of this website is to provide an approximate popularity ranking of world Universities and Colleges based upon the popularity of their websites. This is intended to help international students and academic staff to understand how popular a specific University/College is in a foreign country.

During the process of making 4ICU ranking three unaffected web-metrics are used:

- [Google Page Rank](#) - is a numerical quantity, which considers the importance of webpage, estimated by Google.
- [Alexa Traffic Rank](#) - site rank, based on the volume of registered traffic with the help of Alexa Toolbar.
- [Majestic Seo Referring Domains](#) - number of top-level domains that link to analyzed sites.
